

enfermanía

ENFERMANÍA

¿Qué es Enfermanía?

What is Enfermanía?

Enfermanía nació en el 2006 para dar una respuesta integral a las **necesidades de material** de las enfermeras en el desarrollo de su trabajo diario.

Pioneras en el **sector online**, Enfermanía dio respuesta a un nicho de mercado desasistido hasta entonces, ofreciendo la posibilidad de comprar en un solo click todo lo que la enfermera necesita en su labor diaria.

Durante estos años la oferta de productos de Enfermanía se ha ido ampliando con productos profesionales más allá de la enfermería e incorporando productos destinados al resto de **profesionales sanitarios**, siempre respetando los estándares de calidad y **know-how** que caracterizan a Enfermanía desde su inicio.

Enfermanía was born in 2006 to provide a comprehensive response to the material needs of nurses in the development of their daily work.

Pioneers in the online sector, Enfermanía responded to a target neglected until then, offering the possibility of buying in a single click everything that the nurse needs in their daily work.

During these years, Enfermanía's product offering has been expanding with professional products beyond nursing and incorporating products for all healthcare professionals, always keeping the quality standards and know-how that have characterized Enfermanía since its inception.
